R1150GS Stebel Horn Kit

READ THE INSTRUCTIONS
WITH THE KIT!

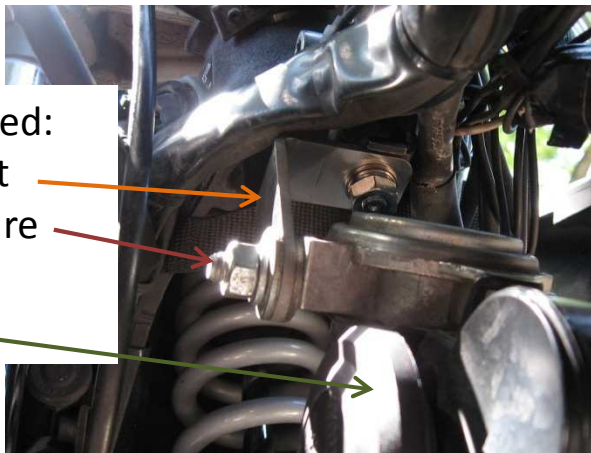

The way the horn will be mounted to the existing horn bracket, bolt & nut (OEM bracket is shown removed from bike to demonstrate mounting method – removal from bike not required for installation)

Excel horn bracket: The “long” side of the bracket is the “down leg” – the plastic horn faces “forward”

Old horn mounting bolt & hardware

With OEM horn removed:
Excel mounting bracket in place
(View: sitting on the ground in front of the bike looking up between the forks at the shock & old horn location)

Horn attached:
Excel Bracket
New hardware
Horn

View #2 - Horn attached – see instructions for wiring
